1. This communication is responsive to the communication filed on 12/01/2009.
Claims 4,6,10,11,12-14 are pending and claims 1-3,5,7-9 and 15-23 are cancelled.

2. Claims 1, 6, 10, 11, and 12-14 are now allowed.

Allowable Subject Matter

3. The following is a statement of reasons for the indication of allowable subject matter:

Claim 4 is allowable over the prior art of record since the cited references taken individually or in combination fails particularly disclose "a forwarding information eliminator for eliminating, after said incoming packet is forwarded to a predetermined port based on said forwarding information, forwarding information corresponding to said port from forwarding information added to said incoming packet." It is noted the closest prior art, Sindhu et al., disclose a high speed switching device having a data handler which divides a data packet into on or more fixed length cells which later be transmitted to an appropriate output port. However, Sindhu et al. fail to disclose or render obvious the above underlined limitations as claimed.

Claim 10 is allowable over the prior art of record since the cited references taken individually or in combination fails particularly disclose "said function item judgment unit and said forwarding information generator are incorporated in at least in one of said plural line interfaces, and when a forwarding port cannot be determined, said incoming packet is forwarded to a port to which a functional processor with said forwarding information generation function is connected." Sindhu et al. fail to disclose or render obvious the above underlined limitations as claimed.

Claim 12 is allowable over the prior art of record since the cited references taken individually or in combination fails particularly disclose "when the same address information is imparted to said incoming packet to be received successively by any of said plurality of line interfaces, a port to which the same functional processor is connected of said plurality of functional processors, is fixedly designated as said forwarding port." Sindhu et al. fail to disclose or render obvious the above underlined limitations as claimed.

Prior Art

Deleted: ¶

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
